# Gem heaven

**B**ased in the West of Cornwall, Gem Heaven jewelry have just launched their stunning new Summer collection. Their latest designs have a real Native American influence. Gorgeous gem stones and embossed handcut silver feather and leaf motifs are just some of their new offerings. Turquoise, moonstone and the stunning labradorite feature in much of her work and have a lovely spiritual quality.

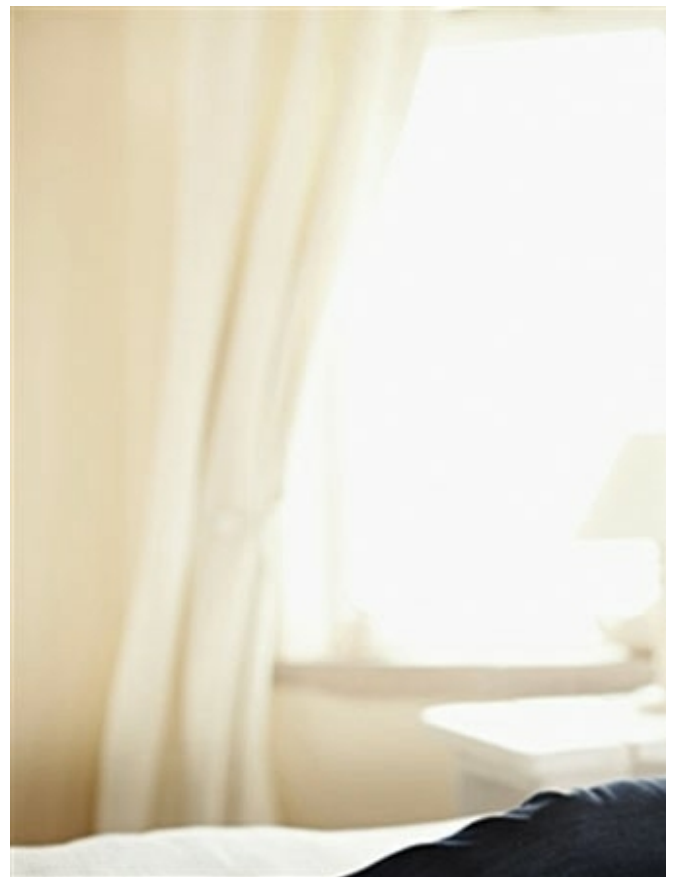

Bustle and Behemian, the pieces really are eye catching. In Tubi who runs Gem Heaven says that she began designing jewelry in 2006 and since then has seen her pieces being sold all over the world. Explains Jo "I feel extremely proud and excited each time I post a piece of my jewelry abroad. For me, knowing that people are wearing my designs all over the world is just mind boggling!"

Jo has had huge success selling her designs through her on line shop but she says, this year she's concentrating on showing her work in local galleries and shops throughout Cornwall. [gemheavenjewelry.com](http://gemheavenjewelry.com)
