Official fuel consumption: 5.56 l/100km and CO<sub>2</sub> emissions of 129g/km. Best-in-class claim is based on the Tourneo Connect 1.0 100cc, with start-stop technology, tested in a controlled environment. Real world fuel consumption can vary as the efficiency of a vehicle is influenced by (individual) vehicle configurations, driving behaviour and use of technical equipment as well as other non-technical factors.
